FABIAN POLICY RULE AT MURRAY

Speedy Trials Not Wanted by the Night Riders Indicted.

BASSETT IS IN CHARGE.

Gen. Williams is in Trigg County, Encamped Near Center Furnace.

Murray, Ky., April 29.—All of the cases against alleged night riders, set for trial Tuesday, were continued on motion of the defense, until the fifth day of the August term of court. The prosecution announced ready and made an effort to force a trial.

The State had about sixty witnesses recognized to appear in August, and the defense called about a dozen. The defense hopes to be equally successful in August in getting a continuance, but will not then have the advantage of the law as at this term. Besides these cases it is believed that other indictments will be returned in August. All the accused Kirksey men against whom the grand jury, just dismissed, did not find indictments, are still under bond and will remain so until after the August grand jury adjourns.

Sheriff Edwards made more arrests Tuesday of indicted raiders. The men caught are Jasper Garland, Henry Taylor, Van Elkins and Will McClure, all of the eastern part of the county. This is the second arrest of Elkins. The other men had come to town to see how the trials went, not knowing, doubtless, that they were under indictment, and the Sheriff picked them up. McClure was arrested in the courtroom. He is a middle-aged man. The others are young men, Jasper Garland being a younger brother of Clay Garland, who gave himself up yesterday. The men were able to make bond. There is not now an alleged night rider in jail. There are only two or three others indicted who have not been arrested, and one of these is reported to have started to the Philippines.

Maj. E. B. Bassett arrived here today from Hopkinsville to assume command of the soldiers in the absence of Gen. Roger Williams. The soldiers will continue to be stationed here presumably as a base from which operations will be begun in Trigg county.

Brigadier General Roger D. Williams, Capt. Givens, Capt. Chapman and fourteen men of Company H are in Trigg county. General Williams' move is said to simply to look over the situation in Trigg.

Warrants for twelve white men, employed at the iron works at Center Furnace, in Trigg county, were sworn out at Cadiz. The men are charged with banding together to drive negroes in the employ of the works away from the community. Gen. Williams is camped near Center Furnace.

CONFERENCE ON FRANCHISE

Officials of the Cumberland Telephone Company Visit the City.

WILL MEET COUNCIL.

To Discuss the Purchase of a Franchise at the Meeting in May.

Messrs. Jas. E. Caldwell, President, and Leland Hume, General Manager, of the Cumberland Telephone and Telegraph Co., of Nashville, were in the city yesterday. They came to hold a consultation with Mayor McEacham in regard to the ordinance recently passed by the council and to arrange for a hearing by the council. They desire to open negotiations looking to an adjustment of the differences between the city and their company and are willing to buy a franchise. They were invited to be present at the mid-month meeting in May—the 15th—to discuss the matter with the council.

Mr. Caldwell said they would ask for the sale of a franchise based upon their last contract with the city, in its essential provisions, and would prepare such a one and submit it at that time. The city will also have a franchise prepared and the matter will be gone into. It is hoped that an adjustment can be reached without any litigation.

to be established at Murray, Princeton and Hopkinsville and that it is likely soldiers will be retained at all of them all summer.

It is also said that Gen. Williams and several officers will soon go to Trigg county to look over the conditions there. Then the General will decide whether he will take soldiers into the county or not. While there he will hold consultations with the officials of the county and be largely directed by what they have to say in the premises.

Co. D. Doing Service.

The detachment of seven soldiers from Co. D. of this city, have been transferred from Paducah to Wheatcroft, in Webster county. Another detachment is doing local guard duty at night.

Garland Gives Bond.

Clay Garland, one of the alleged night riders indicted in Calloway county, was arrested and gave bond at Murray. In is generally expected that a continuance of the cases will be asked by the defense and probably granted, though the prosecution will announce ready for trial.

Mrs. T. J. McReynolds entertained at Hotel Latham yesterday afternoon in honor of her guest, Mrs. Phil Poynter, Como, Miss. The decorations were beautiful and elaborate and elegant refreshments were served. The reception was one of unusual brilliancy.

Dr. and Mrs. A. H. Edwards will be the hosts at a reception this evening at their handsome South Main street home.

WOMAN FELL FROM GRACE

Taught To Be a Man-Hater
She Has Now Changed
Her Views.

QUEER SECT OF WOMEN.

After All, the Horrible Men
May Be Endured By
Fair Sex.

A few days ago a ticking over the wires from Philadelphia announced the marriage of Miss Adah Pratt to Mr. B. Franklin Hoover. The thought at once ran back through more than thirty years and stopped at the town of Waco, in the state of Texas.

At that time there was living in the town a Mrs. Whirter, who was long on religion and short on senses. This woman claimed she had received a visitation from God and had been told that it was sinful to live with a man. She found other women, sour on husbands, who accepted her theory and a colony was established with headquarters at Britton and all men-haters were invited to come in and made welcome. It was Tennyson's story of the "Princess" told over without its intelligence and pulchritude.

Mrs. Pratt, the mother of the Philadelphia bride, was one of the converts and leaving her husband, joined the sect and shortly afterward there was born to her the first and only child ever born in the colony, and it was named Adah Pratt. The babe was hailed as one sent from God to prove how useless and sinful it was for women to marry men. Her life was to prove to the world that woman's true sphere and happiness was in the realm of single blessedness.

Everything that could be, was done to create in the girl an aversion for men. For twenty years she never spoke to a man. Of course she saw men, but never took any notice of them; thought it was sinful. One day she met Hoover and her idea of sin vanished like mist when the sun had risen. A new light had come into her life. She was in love, as she expressed it herself, "I was just crazy about him, so I followed him to Philadelphia and told him of my love." He said, "Let's get married," and so we did.

The sect now has its headquarters in Washington, with a farm in Maryland. There are said to be many enthusiastic members who go out to destroy man and his works, and with them man and the devil are synonymous. There are still some children in the colony and to save the girls from so sinful a fate as marriage, they will have to go out and kill Dan Cupid, but he is a shy little devil and sometimes shoots his arrows into old hearts. The fox who lost his tail in a trap thought foxes looked better without tails, but could not convince the others, and these good old sisters may believe they have a revelation from God, but it will be hard to convince a young girl that a fine looking fellow is something to be shunned. —Post.

LAMBS DEVoured

Alive By Starving Flocks of Buzzards.

Mr. A. H. Wallace, of Newstead, reports that buzzards have destroyed 12 or 14 of his young lambs. They disappeared one by one until he finally found out the cause of their disappearance. Other farmers have reported similar mysterious losses that can be traced to the same cause.

FINLEY FLOURISHING.

Is Still in No Hurry to Come Back For Trial.

Martinsville, Ind., April 24.—A question generally asked here is—"When will W. S. Taylor and Charles Finley return to Kentucky for trial?"

For three years after leaving Kentucky, Finley made his home here in Martinsville. To all the inhabitants he said he and Taylor would return to Kentucky if they could be guaranteed fair trials. Gov. Augustus E. Willson has promised the men charged with complicity in the murder of William Goebel with fair and impartial trials, but thus far it does not appear that Taylor and Finley have made any preparations for returning to their native State. It may be that they are waiting to be sent for, so it is said here, but immediately after the election of Gov. Wilson it was announced that both men would return to Kentucky on their own motion.

Finley Gains 20 Pounds.

Finley returned here this week after a trip through the west for the benefit of his health. He gained twenty pounds while away in Colorado and Arizona, and instead of being a "dying man," as reported, he is now full of health, vigor and strength. He will not discuss his plans or intentions. Finley says himself that he is now in perfect health.

DIRE DISTRESS

It Is Near at Hand to Hundreds of Hopkinsville Readers.

Don't neglect an aching back. Backache is the kidneys' cry for help.

Neglect hurrying to their aid Means that urinary troubles follow quickly.

Dire distress, diabetes, Bright's disease.

M. G. Long, farmer, one of the best known residents of the county, who lives on the large farm which he owns on the Franklin road, one and a half miles east of Russellville, Ky., says: "I had marked symptoms of kidney ailment, particularly in connection with the kidney secretions which at times were most irregular and distressing. Once and a while I would feel a heavy, dull aching across the small of my back, always more severe after an over exertion. My attention was attracted to Doan's Kidney Pills by advertisements in the papers and the statements made by people who had tried them led me to believe that they could be depended upon. I procured a box and before I had used the contents there was a vast improvement in my condition, enough to prove to my satisfaction that Doan's Kidney Pills are fine for kidney and bladder troubles."

DORA'S DUKE DEAD.

A French Fortune Hunter Found Dead in Bed.

Paris, April 26.—The Due de Chaulnes, who February 16 was married in New York to Miss Theodora Shonts, daughter of Theodore P. Shonts, president of the Interborough-Metropolitan Railway Company, was found dead in bed in his apartment at the Hotel Langham, in the Rue Bocador.

The dead body of the Duke was found by his wife. The death of the young man was due to embolism, the obstruction of an artery.

The Duke and Duchess had lived at the Hotel Langham for three weeks, awaiting the completion of their private residence, now in course of construction.

According to the statement emanating from the police the Due de Chaulnes and his wife had retired. Later the Duchess awoke to find her husband dead by her side. Servants responded to her cries for help and a doctor was summoned. The Duchess is still prostrated from the shock, but she has greatly improved.

To feel strong, have good appetite and digestion, sleep soundly and enjoy life, use Burdock Blood Bitters, the great system tonic and builder.

CORTRIGHT METAL SHINGLES

What never leak? Exactly; never leak, never needs repairs of any kind, and last as long as the building itself. Neither melting snow, nor the worst driving rain can possibly reach the interior of the building that's covered with Cortright Metal Shingles. Pretty good recommendation isn't it? In addition we might add they're fire-proof and lightning proof too. Think of it! and they are not as expensive as other kinds of roofing. Step in and we'll show them to you.

—FOR CONGRESS—
HON. A. O. STANLEY,
HENDERSON, COUNTY.

The Weather.

Probably fair and continued cold
Thursday.

Hon. A. O. Stanley has been nomi-
nated for the fourth term without
opposition. Indications are that his
Republican opponent will be John
C. Worsham, also of Henderson.

The Senate by a vote of 50 to 23,
defeated the amendment to the ra-
val appropriation bill for four bat-
tleships. After defeating the amend-
ment the House bill was passed.

Ab Rhea, of Russellville, a brother
of John S. Rhea, is a Democratic
candidate for Congress in the third
District. Robt. Y. Thomas, a brother-
in-law of Ollie James, is also a can-
didate for the nomination.

The list of dead from the tornado
which swept through the South now
numbers 325, and it is probable that
many of the 200 seriously injured
will not recover. Relief work is be-
ing begun with energy, but the con-
dition of the roads makes this diffi-
cult. Several towns are without a
sufficient supply of food.

Raisuli, the Moroccan bandit, was
not killed from ambush as was re-
ported.

After all, soldiers are in Trigg
county, ready to co-operate with the
Sheriff in making arrests upon war-
rants sworn out before County
Judge Bingham. The Trigg county
officers will no doubt find that the
soldiers will be of great assistance to
them in handling the law-breakers.

Hot Stove—Cool Kitchen

How do you expect to en-
dure the broiling days of
summer if you prepare all
the food over a glowing coal
fire?

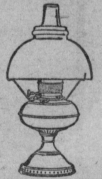

You need a "New Perfec-

do the cooking without cook-

trates plenty of heat under
the pot and diffuses little
or none through the room.
Therefore, when working
with the

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

the kitchen actually seems as comfortable as you could wish
it to be.
This, in itself, is wonderful, but, more than that, the "New
Perfection" Oil Stove does perfectly every-
thing that any stove can do. It is an ideal
all-round cook-stove. Made in three sizes,
and fully warranted. If not with your dealer,
write our nearest agency.

DEMOCRATIC TICKET.

—FOR CONGRESS—
HON. A. O. STANLEY,
HENDERSON, COUNTY.

The Weather.

Probably fair and continued cold
Thursday.

Hon. A. O. Stanley has been nominated for the fourth term without opposition. Indications are that his Republican opponent will be John C. Worsham, also of Henderson.

The Senate by a vote of 50 to 23, defeated the amendment to the naval appropriation bill for four battleships. After defeating the amendment the House bill was passed.

Ab Rhea, of Russellville, a brother of John S. Rhea, is a Democratic candidate for Congress in the third District. Robt. Y. Thomas, a brother-in-law of Ollie James, is also a candidate for the nomination.

The list of dead from the tornado which swept through the South now numbers 325, and it is probable that many of the 200 seriously injured will not recover. Relief work is being begun with energy, but the condition of the roads makes this difficult. Several towns are without a sufficient supply of food.

Raisuli, the Moroccan bandit, was not killed from ambush as was reported.

After all, soldiers are in Trigg county, ready to co-operate with the Sheriff in making arrests upon warrants sworn out before County Judge Bingham. The Trigg county officers will no doubt find that the soldiers will be of great assistance to them in handling the law-breakers.

Nearly a Hundred Converts
and Sixty-one Additions
So Far.

JOIN OTHER CHURCHES.

Thirteen of the New Members Were Baptized
Tuesday.

Up to Tuesday night there had been 61 additions to the Baptist church as a result of the revival which has been in progress for three weeks. Thirteen of the converts were baptized at the morning service yesterday. Mr. A. I. Ruby, the singer, has been unable to conduct the music for several days, being sick at Bethel College. Dr. R. E. Neighbour will preach to-night and it may be his last sermon, at any rate he will be here only a day or two longer. The meeting has resulted in nearly 100 conversions. A good many have joined other churches and some have not yet united with any church. The meeting has been an excellent one throughout and Dr. Neighbour has proven himself to be a very strong preacher.

Hot Stove—Cool Kitchen

How do you expect to endure the broiling days of summer if you prepare all the food over a glowing coal fire?

You need a "New Perfection" Oil Stove that will do the cooking without cooking the cook. It concentrates plenty of heat under the pot and diffuses little or none through the room. Therefore, when working with the

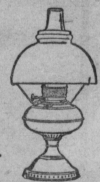

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

the kitchen actually seems as comfortable as you could wish it to be.

This, in itself, is wonderful, but, more than that, the "New Perfection" Oil Stove does perfectly everything that any stove can do. It is an ideal all-round cook-stove. Made in three sizes, and fully warranted. If not with your dealer, write our nearest agency.

The Rayo Lamp

a substantial, strongly made and handsome lamp. Burns for hours with a strong, mellow light. Just what you need for evening reading or to light the dining-room. If not with your dealer, write our nearest agency.

I had to be especially careful about being out of evenings, and not to get chilled when dressed thin for parties, but since I have used Peruna my general health is improved, and my system is in such good condition that even though I am exposed to inclement weather it no longer affects me. The Value of Health.
Who can set a money value on health? It is absolutely priceless. No one in good health can fully appreciate what it means to have poor health. The days are long and tedious. The nights horrible and painful. Nothing goes right. Even the mind becomes deranged and injured by continued poor health. Once liberated from the thrall of sickness words fail to express the joy and relief. Peruna has been the means of relieving more women from ill health in the United States than, perhaps, any other medicine. A multitude of women stand ready to give testimony in favor of Peruna whenever occasion offers.

Miss Lillie C. Martin, Shelbyville, Tenn., writes: "Everybody says I look better than I have for two or three years, and I sincerely thank you for your kind advice. "A friend who had been cured by Peruna advised me to try it and I sent for a bottle at once, and I am glad to say that in three days the phlegm had loosened, and I felt better, my appetite returned and within nine days I was in my usual good health."

Will Repeat Play.

Plans are being laid by the High School to have the girls repeat their play of Friday at the Tabernacle. In addition to this the boys will put on a play, "The New Hamlet." The performance of the girls was highly creditable in every way and the additional practice will put them in fine training.

The boys have been working hard on their play to prevent the supremacy of the girls. We are very sure that both efforts will be a treat to the public.

THWARTED ELOPEMENT

Litt's Webster County Lassie Checked By a Determined Mamma.

Chief of Police Roper on Tuesday received instructions from the Marshal of Seebree to stop an eloping couple who were on the Dixie Flyer, enroute from Dixon to Nashville, Tenn. Officers met the train and took them into custody. Dave McCormick, a big pleasant faced boy of 18, and Jessie Edens, a plump little brunette 14 1/2 years old, were the elopers. They were accompanied by Children Glasbrooks, of Tilden, and Miss Minnie Madden, of Waverly, Ky. a couple somewhat older who looked as though they might also be sweethearts. The girls were bareheaded. They escaped under the pretense of taking a short ride Monday evening, near the home of Mrs. Cynda Sisk, the mother of the would-be bride, but continued their journey sixteen miles to Seebree and after sitting up the rest of the night in the depot caught the train at 7:43 for Nashville. The little girl was in knee dresses, with her hair platted on her neck and looked to be a mere child of 12 years old. The entire party were taken to Chief Roper's private office and spent the day. An officer went with them to the Hill House for dinner and in the afternoon all but Miss Edens took walks about the city until the 5:15 train arrived, with the little girl's mother, and all returned at 5:47 to Webster county. Mrs. Sisk said she had no objections to the match except the extreme youth of her daughter. She said she told them to wait two or three years, but they were so anxious to marry at once that they undertook to do so without her consent. McCormick said he would talk the matter over on the train and was confident it could be arranged. He said they intend to marry in spite of all opposition, and the girl agreed with him that they had thoroughly made up their minds. Miss Madden remarked in the same conversation: "Jessie's mother has been married twice and don't want her to marry even once."

The couple seemed to be very much in love and did not hesitate to talk about their elopement. The entire party seemed to be in fine humor and Mrs. Sisk showed no signs of anger, but laughed and talked at the depot between trains. Both of the girls were quite pretty. Miss Edens has dark hair, big gray eyes, olive complexion and a sweet childish face. The affair aroused lively local interest and a big crowd was at the train to see the party off.

SEWER CONTRACT

Re-let to Dalton Bros. For Brick Instead of Concrete.

The City Council met Tuesday night in called executive session to consider some important matters. After these were disposed of an open session was held.

Amendments to two or three street improvement ordinances were adopted, substituting concrete for brick pavements.

The lowest bidder for the Tenth street sewer, Gus Moore, declined the contract and the Sewer Committee recommended that the contract be awarded to Dalton Bros. at the price of \$3,931 and that brick be substituted for concrete. The contract was authorized provided a satisfactory arrangement for deepening the sewer two feet can be made with the contractors, to avoid certain pipes and conduits on Main street.

The Council authorized the Street Committee to purchase a carload of Kentucky asphalt, for street work.

An appropriation of not exceeding \$300 was made to the county to assist in changing the Greenville road at its intersection with First street, to run east of the standpipe of the Water Company. The Dalton Stone Company's plant has worked the quarry hill on the west side to such an extent that the road is unsafe and the Fiscal Court has authorized the changing of the road. The stone company agrees to metal the new road, which is to run around the eastern and northern sides of the hill.

The Mayor reported to the Council that the resignation of Lee Morris as a member of the Fire Department had been accepted.

Remains Removed.

The bodies of the two children of the late J. W. McGehee, which were buried here, one in 1879 and the other in 1882, were exhumed yesterday and taken to Clarksville this morning, where they will be re-interred in the family lot in Hollywood Cemetery.

McCormick said he would talk the matter over on the train and was confident it could be arranged. He said they intended to marry in spite of all opposition, and the girl agreed with him that they had thoroughly made up their minds. Miss Madden remarked in the same conversation: "Jessie's mother has been married twice and don't want her for marry even once."

The couple seemed to be very much in love and did not hesitate to talk about their elopement. The entire party seemed to be in fine humor and Mrs. Sisk showed no signs of anger, but laughed and talked at the depot between trains. Both of the girls were quite pretty. Miss Edens has dark hair, big gray eyes, olive complexion and a sweet childish face. The affair aroused lively local interest and a big crowd was at the train to see the party off.

SEWER CONTRACT

Re-let to Dalton Bros. For Brick Instead of Concrete.

The City Council met Tuesday night in called executive session to consider some important matters. After these were disposed of an open session was held.

Amendments to two or three street improvement ordinances were adopted, substituting concrete for brick pavements.

The lowest bidder for the Tenth street sewer, Gus Moore, declined the contract and the Sewer Committee recommended that the contract be awarded to Dalton Bros. at the price of \$3,931 and that brick be substituted for concrete. The contract was authorized provided a satisfactory arrangement for deepening the sewer two feet can be made with the contractors, to avoid certain pipes and conduits on Main street.

The Council authorized the Street Committee to purchase a carload of Kentucky asphalt, for street work.

An appropriation of not exceeding \$300 was made to the county to assist in changing the Greenville road at its intersection with First street, to run east of the standpipe of the Water Company. The Dalton Stone Company's plant has worked the quarry hill on the west side to such an extent that the road is unsafe and the Fiscal Court has authorized the changing of the road. The stone company agrees to metal the new road, which is to run around the eastern and northern sides of the hill.

The Mayor reported to the Council that the resignation of Lee Morris as a member of the Fire Department had been accepted.

Remains Removed.

The bodies of the two children of the late J. W. McGee, which were buried here in 1879 and the other in 1882, were exhumed yesterday and taken to Clarksville this morning, where they will be re-interred in the family lot in Hollywood Cemetery.

POSTAL BUREAUCRACY

Russian Repressive Methods in
Vogue in the U. S. Postoffice.

A Member of the New York Bar Shows
How the Rights of American Citizens
Are Constructed as Privileges
Which May Be Taken Away at the
Whim of Some Man Who Has Not
Even Been Elected to His Office.

By JAMES E. MORTON, Jr.

The adherents of universal govern-
ment ownership are never weary of
pointing to the postoffice as the crown-
ing illustration of the blessings of fed-
eralism. The splendid uniformity and
regularity of its operations are held up
to our admiration in contrast to the
irregularity of private management of
the mails. So loudly are the claims
uttered that not one individual in a
thousand so much as suspects that
there is the least dispute concerning
the alleged facts on which they are
founded. Yet a little investigation will
disclose that even in this branch of
service, far more adapted to govern-
ment handling than almost any other
that can be named, there exist, side by
side with whatever benefits are four-
fold to accrue, the most serious evils
and dangers, from which private man-
agement is free.

The question of economy would re-
quire extended handling, and it is
enough for the present purpose to re-
mark that a close investigation in this
direction will give the advocates of fed-
eral ownership more than one bad half
hour. A much more serious phase of
the subject is that which concerns the
gradual transformation of an adminis-
trative function into an autocratic con-
sultation. That such a process should
have actually taken place under the
fostering care of democratic institu-
tions would be incredible if it proved
beyond a cavil.

Here are a few facts: Under the
"grand order" system an individual
who has given offense to a single
postal official may be driven to bank-
ruptcy without fault on his part and
with no hope of redress from the courts
or from any other source. A single
arbitrary fiat may forbid all delivery of
mail to him as long as he lives and
thus effectively cut him off from com-
municating with his kind. He may be
a man of the strictest honesty. A
judge and jury may determine his case
to be entirely legitimate. Still,
one hostile bureaucrat in Washington
may refuse him the elementary rights
of a citizen. The United States
supreme court has coldly ruled that use
of the mails is "a privilege and not a
right" and that the citizen has no
ground for legal complaint if the post-
al authorities see fit to deprive him
of it. In other words, the government
may suppress all competition in car-
rying the mails, allowing no means of
communication except through its
agency, and then assumes the right to
refuse to any person the service it will
not allow him to obtain elsewhere! If
there is no menace to our liberties in
this way where shall we look for such
a menace?

That not a mere possibility, but a
serious actuality, is here spoken of the
case of Helen Williams will amply
demonstrate. Mrs. Williams published
a mental science paper, wherein she
set forth the doctrine that mind suffi-
ciently developed and concentrated
could become entirely dominant over
bodily disease and might in time even
achieve the conquest of death itself.
She offered her services to re-verse the
will of those who sought for health
and bodily vigor and seems to have
actually helped many hypochondriacs
and nervous invalids to regain their
strength by removing their supersti-
tious and hopeless. That her prac-
tice resulted in harm to any human be-
ing has never been shown. There was
no deceit in her treatment. Its nature
was clearly stated, and only those to
whom her theories carried conviction
availed themselves of it. In an evil
hour, however, she chanced to offend a
postal official. As a consequence an
edict was promulgated denying her all
use of the mails for any purpose. Every
letter addressed to her was stopped
and "Prudent" and returned to the
sender. The order was extended to the
paper, causing its death and depriving
her of the right to preserve her side of
the matter to the world. Ultimately
all the members of her family were
embraced in the sweeping fiat. For
something over five years, up to the
day of her death, this American wo-
man was officially marooned from in-
tercourse with her kind through the
mails. No appeal was of any avail, as
the courts refused to interfere.

A similar arbitrary proceeding de-
stroyed the People's Bank of St. Louis
about two years ago, although this
time the institution was so far from
being fraudulent that when thus sud-
denly forced to go out of business it
at once liquidated all its debts, paid
all its depositors in full and returned
dividends of 85 per cent to the stock-
holders.

The "second class" mail rulings form
a tissue of absurdities which cannot be
briefly treated. The luckless publisher
without "influence" is treated as a sus-
pected criminal from the moment he
pays application for admission to the
mails—he has either too much advo-
cating matter or too little, his publica-
tion is too much given to exploiting
the views of its editor, the paper con-
tains too little of general interest, it
carries too many exchanges, too many
copies are sent to subscribers in ad-
vance, too many sample copies are
sent out, and so on. When the publi-
cations in desperation begs for a defi-
nite ruling on any one of these points
he is innocently told that "the post-
office cannot undertake to instruct pub-
lishers." They must know by instinct
just what course will keep them clear
of scylla and Charybdis or they are
arbitrarily refused "second class" reg-
istry, which generally forces the paper
to suspended.

The classic laws against lotteries and
obscene literature form another oc-
casion for official abuse of discretion.
Vouchsafing no exact definition of
either of these terms, the department
every now and then pounces on a pub-
lication whose editor dreamed of nothing
so little as of giving legitimate ground for offense. The Chicago su-
perintendent of second class mails the
other day branded as "obscene" a re-
port of the national purity congress
the acting assistant attorney general
of the United States has declared a
magazine unavailable for containing a
simple advertisement of a study of the
social conditions written with the most
careful purpose by a former resident phy-
sician on Blackwell's island and recog-
nized for fifty years as a classic work
of immense value to the sociological
student. A former official found in-
decency in a helpful work on painless
childbirth for the use of prospective
mothers.

These are but a few samples of unde-
nable abuse of authority in the va-
rious branches of the postal service,
and the like could be multiplied until
it would fill a volume. Here the citizen
is deprived of his rights with no vestige of "due
process of law" as arbitrarily as could be
done in Russia. If he appeals to the
courts, he is told that there can be no
redress, as is clear from the following
decision:

"The courts will not interfere by man-
damus with the executive officers of the
government in the exercise of their law-
ful duties. The government is not bound
to require an interpretation of their
official powers being given them that
purpose."—U. S. ex rel. Dunlap v. Black,
122 U. S. 8.

Under these and like rulings the citi-
zen aggrieved by the act of a postoffice
official must submit to any outrage
that may be imposed on him. The matter
has been repeatedly noted, and
without any mode of securing relief.
The bureaucratic postal regime fur-
nishes one of the darkest and most
difficult problems for our democracy to
solve. With government ownership of
transportation lines and other related
activities the possibilities for a com-
plete and perpetual despotism would
be enormously increased. The de-
stroying and prohibiting all private
modes of conveyance the government
might well declare that transportation
is a privilege, and that it is the right
of those whom the executive chose to
rate as "undesirable citizens" from all
possibility of travel. Until the post-
office system has been made suffi-
ciently democratic it is not a species
of insanity to invite our people to em-
bark in enterprises of a more decidedly
state socialistic character?

Several Reasons, All of Them Good.

Christiansburg, Va., installed its own
electric plant in 1900 and now has a
000. A year or so ago the generating
plant was shut down and power pur-
chased from a private company. Now
the distributing plant has been sold,
the experiment having proved very
expensive, according to reports. The
major virtues are as follows:

First, and several reasons for disposing
of our electric system. First, we
owned only the lines in and within a
radius of one mile of our corporate lim-
its. The power is generated about fif-
teen miles from our town and is fur-
nished by the Grayson Electric com-
pany. The J. L. Vaughan company has
purchased our rights and the Grayson
plant, and we are sure that the other
improvements under individual man-
agement that we could not under mu-
nicipal. Christiansburg is bettered
electrically, and we are sure that we
have made a good deal for our town."

Documentary Evidence of Failure.

The electric plant of Nashville, Ariz.,
borough of McAdoo, Pa., in 1890 at a
cost of \$10,000 was leased in January
last for twenty-five years. In the
agreement the situation was set forth
by the council as follows:

"The borough is now owner of a cer-
tain municipal electric light plant in
the borough and in the operation of
thereof has encountered certain losses
to such an extent that the cost of op-
eration and maintenance, together with
the interest on the bonded indebted-
ness incurred by reason of the erection
of the said municipal plant, exceeds the
income derived therefrom."

The amount of revenue collected dur-
ing 1907 is said to have been about
\$1,000 less than the operating ex-
penses.

Fewer Snags Under Private Manage-
ment.

By vote of the city council the mu-
nicipal gas plant of Nashville, Ariz.,
was closed down last January. Al-
though the price of gas was \$3 a thou-
sand, the expenses were nearly double
the receipts. The mayor writes:

"The reason of such action by the
council is that it could not make it-
self sustaining, but the council has
the receipt. The mayor writes:

"The manager evidently knew that
with a free hand he could steer clear
of some of the snags that could not be
avoided under city management."

Brief, but to the Point.

In 1893 the town of Needham, Mass.,
installed an electric distributing plant
at a cost of \$13,774, to which con-
siderable additions have since been
made. By vote of the town the plant
has just been sold for \$11,000, and a
twenty year contract for street light-
ing was made with the company man-
aging the plant. The town clerk sums
up the reason for this action in one word,
"economy."

THE SECRET OUT.

proper strength. The exact working
formula for making these medicines cost
by Dr. Pierce's "Secret Out" and
Pharmaceuticals many years of study
and experiments, but as perfected they
produce almost perfect pharmaceutical
compounds, containing all the active
ingredients employed, and this, too, in such
form and combination as to keep un-
changed in any climate. Thus the use
of alcohol is entirely avoided.

PROOF POSITIVE.

Without solution, Mrs. H. Harrison,
of 112 West 21st Street, Sioux City, Iowa,
wrote us as follows:

"I suffered for more than seven years with
a very complicated form of female trouble
accompanied with nervous prostration,
and after doctoring with six physicians (all bear-
ing excellent reputations), was informed that
unless an operation was performed I would
lose an invalid all my life. Hearing of the
wonderful cures effected by Dr. H. V. Pierce's
remedies, and believing that there must be a
cure for almost every ailment, I determined
to make one more effort. I wrote to Dr.
Pierce, and I will never forget his kindly
reply, telling me to follow his instructions
faithfully and not to submit to any kind of
operation, to improve after his weak
treatment, and in five months my improve-
ment was so noticeable that I began to
began to inquire about my method of treat-
ment. Dr. Pierce's 'Secret Out' and Family
Medicine, the Doctor has decided to
publish all the ingredients entering into
his 'Favorite Prescription' for women
and his equally popular tonic altera-
tive known as Dr. Pierce's Golden Medical
Discovery. Hereafter every bottle
of these medicines leaving the great
Laboratory at Buffalo, N. Y., will bear
upon it a full list of all the ingredients
entering into the compound. Both are
made entirely from native roots, of rare
medicinal value. The ingredients of the
'Golden Medical Discovery' being
Golden Seal root, Queen's root, Stone
root, Black Cherry bark, Mandrake root
and Bloodroot. The 'Favorite Prescrip-
tion' is prepared in a similar manner,
from Blue Cohosh root, Lady's Slipper
root, Unicorn root, Golden Seal root and
Rattleweed root, these ingredients being
macerated for a long time at a rather

FREE ACTS FOR THE
STATE FAIR SELECTED

Really the Best Obtainable—
Experiment Plat a Most
Valuable Feature.

Nashville, Tenn., April 29.—The Tennessee State Fair Association a few days ago contracted for the best lot of free amusement features that will appear at any of the Southern fairs in 1908 and as good as will be provided by any fair in the country.

The acts that will be given twice each day out in front of the grandstand have been selected to please every taste. They are: Spellman's Troupe of Seven Performing Bears; James E. Hardy, the champion high-wire walker; Matt Gay, a sensational high-diver; the Kitzanzy Troupe of Japanese acrobats; Balno and Shaw in their European novelty burlesque act; the Five Flying Dordens in some remarkable acrobatic feats.

These will be of course, in addition to the free concerts by Weber's Band of Cincinnati and the Nashville Military Band and the brilliant horse-show that will be given every evening.

STATE FAIR EXPERIMENT FARM.
The Southern Agriculturist's 20-acre experiment plat on the State Fair grounds, which will be under the direction of Prof. H. A. Morgan of the Tennessee Experiment Station this year, has been prepared and seeded in such grasses and leguminous plants as Prof. Morgan advocates for the best interests of Tennessee farmers. Each sub-division of the plat will be placarded so that visitors can tell the exact varieties and a man who can answer such questions will be on hand to assist individual farmers to decide what is best for their own land. This feature alone as a practical demonstration of the value of soil building, etc., by means of proper planting will be worth actually thousands of dollars to the farmers who take advantage of the opportunities thus offered.

The planting is being done so that all varieties will be as near maturity as possible during the week of the Fair—September 21-26.

KENTUCKY HERO.

Monument to Midshipman
Cruse in Arlington Cem-
etery.

The parents of midshipman, of Owensboro, have erected a monument to the brave Kentuckian in Arlington cemetery, Washington.

When the explosion occurred on the Georgia last year Cruse was at one gun in the turret and his classmate and personal friend, midshipman Goldthwaite, of Hopkinsville, Ky., was at the other. Goldthwaite was so severely injured that he died two hours later. Cruse, although badly burned, got out of the turret and then, hearing cries for help, deliberately turned and went back badly burned as he was, and gave all assistance in his power. When somebody suggested that he was badly hurt himself he made his famous reply:

"Never mind me, I'm alright; look after those other fellows."

With the other badly burned men he was later taken to the Naval Hospital at Chelsea. He died three days later.

Itch! Itch! Itch!—Scratch! Scratch! Scratch! The more you scratch the worse the itch. Try Doan's Ointment. It cures piles, eczema, any skin itching. All druggists sell it.

A paper of decided importance, especially to the literary world, is that on "The Tragic End of Guy de Maupassant," in the May Lippincott's. Professor Albert Schinz, the author, has had special advantages in getting at the facts connected with the pitiful termination of his distinguished fellow-countryman's career, and the mystery which has heretofore enshrouded it for so many is now satisfactorily cleared up.

Kentucky Veteran.

Nashville, Tenn., April 26.—T. J. Waltham, a Kentuckian, 71 years of age, who served under Forest, died Saturday at the Soldiers' Home. Some time ago, at his own request, he was sent to the insane department of the County Hospital for the Poor and only returned to the Soldiers' Home Thursday. He came to the home from Shelby county.
